

English at Work

What benefits do organisations offer employees who have a good level of English?

All company sizes — All sectors — Showing Global

What does this mean?

Around 50% of employers offer a better starting package to applicants with good English language skills. Having these skills can lead to a faster progression through job grades and a higher salary increase. Better pay and benefits packages are most common in non-native English-speaking countries.

Learn more about the benefits for employees in your country in our [full report](#). Register to download the [English at Work report](#) and find out what Cambridge English experts say about the findings.
