

English at Work

What percentage of staff have the English skills needed to succeed in their role?

All company sizes — All sectors — Showing Global

Top management

Marketing

Accounting & Finance

Sales

Human resources or Personnel

Production

Customer services

Logistics or Distribution

What does this mean?

In every industry, there is a gap between the English skills required and the English language skills that employees have. Across all company sizes globally there is at least a 40% skills gap.

We work with companies like yours to help identify the level of English required when recruiting new staff. [BULATS](#) is a set of workplace English language assessments and training tools. It helps you ensure your employees have the Business English language skills needed to succeed at your company.

[Our Business English Can Do statements](#) are a helpful summary of the tasks that staff should be able to do at different levels of the [CEFR](#).
